

Europass Curriculum Vitae

Personal information

Surname(s) / First name(s)

Massimiliano Masi, M.Sc., Ph.D.

Address(es)

249, Via di Ripoli, 50126 Firenze, Italy

Telephone(s)

+39 339 7177534 Mobile: +43 664 88468216

Email(s)

massimiliano.masi@gmail.com

Homepage(s)

<http://www.mascanc.net/>

LinkedIn profile(s)

<http://www.linkedin.com/in/massimilianomasi>

Nationality(-ies)

Italian

Date of birth

28 August 1978

Gender

Male

Summary

Dr. Masi has more than 13 years of experience in IT security. Relevant experience includes specification of IT security measures of the eGP-EGOR and BeS Projects in Austria, and South African eHR.ZA (governmental eHealth initiatives), lead role of epSOS.eu Common Components Development (CCD) and leader of the Core team of the epSOS Security Experts Group, design security aspects of the LHC computing GRID. Dr. Masi has been a member of the OASIS Trust Elevation Committee.

Dr. Masi is also the editor of the IHE ITI profile Cross Community Fetch (XCF), and participated in the evaluation of the IHE profiles related to security (e.g., XUA, XUA++, SeR, Access Control White Paper, and ATNA). Dr. Masi has strong experience in both leading and contributing to working groups and teams in international projects (results are part of commission decision 2015/1032). It is actually leading various task forces in the e-SENS project. Selected Expert from the Austrian Ministry of Health, and consultant for various European Commission bodies (DG DIGIT and SANTE, eHealth Network). ITIL and ISO 27000 certified.

Analysis and adoption of the eIDAS regulation, 910/2014/EC, on eID and evidence as per Art 3 for the eHealth domain through the eHealth DSI and e-SENS.

As developer, Dr. Masi main focus is on high performant Java Backends. Several nationwide projects depend upon security-related services that have been implemented.

**Desired employment/
Occupational field**

Computer Science, Network Security, eServices (eHealth, Smart Grids)

Work experience

Dates	04/2007 →
Occupation or position held	Security Architect, Java Developer

- In 2008 I participated in the definition of security requirements and measures for phase-0 of the eHR.ZA, a national eHealth project held by the South African government for sharing medical data (e.g., DICOM images, CDA documents patient summaries). In the scope of this project, I participated in the definition of the initial infrastructure;
- In 2009 I specified the security requirements and measures of the eGP-EGOR project in Upper Austria. This project currently exchange CDA documents for 1.5 million of patients, connecting Upper Austria and Tyrol;
- Since 2008 I am actively participating and contributing to the development of the IHE IT Infrastructure technical framework (<http://www.ihe.net>). I contributed to the development of the IUA, XUA and XUA++ profiles, and I co-authored the Cross Community Fetch (XCF) profile. I participated at more than 10 IHE connectathons and I am active in the ITI Committee;
- Since 2009 I am an active contributor of the security architecture for the epSOS project (<http://www.epsos.eu>), a pan-European network for sharing patient summaries and ePrescriptions among EU member states. I co-authored deliverables 3.4.2 (software architecture), 3.7.2 (security services), 3.10.1 (implementation), and 3.A (software architecture for epSOS-II). I am leading the Core team of the Security Expert Group;
- In 2009 I developed the ATNA profile (audit trails and audit record repository). The implemented audit record repository is actually the ARR for the epSOS participating nations, for the South African eHR.ZA Proof-of-Concept, and in various initiatives in Europe and in the U.S.A.;
- Since 2008 I am the developer of an Identity Management solution for eHealth projects (based on XUA, XUA++, SAML, XACML, XSPA, and the HI7 RBAC catalogue) actually in production in Upper Austria and in some epSOS participating nations. This software has been used for 10 IHE connectathons as the official identity provider;
- Since 2009 I am in the leading team (the Fraunhofer/ELGA team) for the deployment of the epSOS software in some EU participating nations;
- Since 2011 I act as security consultant for the Austrian National Authority and ELGA GmbH. I contributed to the development of the austrian national eHealth infrastructure;
- In 2011 I participated in the development of the security measures for authentication and patient consent management for the Holyoke Medical Center, in Holyoke, MA (U.S.A.). MEDITECH interoperability;
- Strong knowledge of the U.S. DIRECT project specifications (S/MIME 3.2, XDR, Security) and DIRECT interoperability. In 2012 I implemented the Tiani-Spirit Hisp-in-a-box (deployed in Maryland and in Pennsylvania);
- Trainer. I teach in official Tiani "Spirit" trainings for new business partners and investors (Forward Advantage, Meditech, CGI, T-Systems, ELCA) in general Network Security and Protocols, ISO 28380 (IHE adoption), IHE methodology and profiles, Software. Courses made in Boston, London, Vienna;
- In 2011 I was a member of the OASIS Trust Elevation Technical Committee, in which I participate to the specification of standard methodologies for elevating authentication and authorization procedures. My focus is to use such techniques for Healthcare Emergency Treatments;

- Since 2012 I am representing epSOS within the e-SENS, European Interoperability Framework (EIF), and eHGI european initiatives. In these projects I was responsible moderator for the national adoption of the new European regulation for eID and eSignature (eHGI); eHealth consultant for the EIF, and epSOS technology representative in e-SENS. In particular my task in this e-SENS project is to bring the european eHealth infrastructure to the new upcoming eInfrastructure for the European Digital Single Market. I am leading various security-related task forces and I act as IT reference architect for the member states piloting in the e-SENS, for which I participated in the definition of the CEF building blocks relevant for eHealth. I provide the test assertions used by the EU tool and Gazelle under the GITB for instrumenting tests for the cross sectorial building blocks. Interview made for ePractice.eu: <https://www.youtube.com/watch?v=ktRdUMfuDz0>;
- In 2013 I started a survey software interoperability and IT security for Energy (ENTSOE) and Gas (ENTSOG). In particular I am studying on a possible adaptation of the ISO/TC 215 methodology to Smart Grids. I am a influencer of the IES project, <http://www.smartgrids.at/plattform-aktivitaeten/ies-integrating-the-energy-system-austria.html>;
- In 2014 I led the Healtheway certification program (<http://healthewayinc.org>) for Inland Northwest Health Services (<https://www.inhs.info>). I discovered and patched several bugs of the security of the CONNECT open source (<https://connectopensource.atlassian.net>, not yet released, at the time of writing). The outcome of this program has been used as consultancy by Trillium Bridge project (<http://www.trilliumbridge.eu>);
- In 2014 I played the role of IT Agile Security Architect and Developer in the Consent2Share consortium (<http://wiki.siframework.org/SAMHSA+Consent2Share+Project>), coordinating Tiani Spirit resources under a strict agile processes. This project aims at interconnecting different security and semantics domains under the Maryland legislation;
- Since January 2016 I am in the technical committee of the OpenNCP. My main task is to refactor the implementation to align it to the epSOS specifications. <http://openncp.atlassian.net>, <https://bitbucket.org/openncp/ehealth>;
- Since June 2016 I am leading the task of the eIDAS Regulation adoption in the eHealth domain across europe, suggesting technical solutions discussed by the eHN (http://ec.europa.eu/health/ehealth/policy/network/index_en.htm). I am coordinating the international pilots between the EU Commission, Austria, Italy, Portugal, and Greece. (Results will be published at the end of the e-SENS project);
- Since June 2016 I act as consultant for ENISA, the European Union Agency for Network and Information Security. I am conducting a study on eHealth and Cloud security. Partial information can be found here: https://ec.europa.eu/eusurvey/runner/ENISA_eHealth_and_Cloud. The study will be available October 2016.

Keywords: eHealth projects, Network Security, IHE, HI7, SAML, XACML, XSPA, XUA, ATNA. Since 2007 I am also a member of the IEEE computer society.

Name and address of employer

Tiani "Spirit" GmbH, Guglgasse 6. Gasometer A, 1110 Wien, Austria / Europe <http://www.tiani-spirit.com>, +43 66 48 40 64 96

Type of business or sector

Computer Science / Information Technology for the Healthcare Enterprises

Dates

02/2007 - 04/2007

Occupation or position held

C software developer

Main activities and responsibilities	C++ developer for ACX IBM libraries
Name and address of employer	Keywords: C, C++, AIX, ACX, software engineering Savino del Bene IT consulting, Via Gozzoli Benozzo, 5/2, 50018 Scandicci (Florence) http://www.sdb.it
Type of business or sector	Computer Science / Information Technology
Dates	01/2006 - 12/2006
Occupation or position held	IPMIToolSuite developer, Grid computing developer, Network Security developer
Main activities and responsibilities	Grid services and IPMI developer, user authentication solutions for the LHC computing GRID Keywords: SPNEGO, GSSAPI, PKI, SSL, Grid Computing, IPMI, Ipmitool, OpenIPMI, linux kernel 2.6, SLC4, Grid certificates management, Perl, Java, C++, Virtual Organizations
Name and address of employer	CERN, CH-1211 Geneve 23, Switzerland, http://www.cern.ch , https://twiki.cern.ch/twiki/bin/view/FIOgroup/TsiSection
Type of business or sector	Computer Science / Research
Dates	01/2004 - 03/2012
Occupation or position held	Linux and AFS cell administrator
Main activities and responsibilities	Creator and maintainer of the OpenAFS cell pb.unifi.it and mail services for the secretariat of the University of Florence Keywords: Kerberos, AFS, IMAP, Cyrus, apache, postfix, XEN
Name and address of employer	Università degli studi di Firenze - Polo biomedico
Type of business or sector	Computer Science / System Administration
Dates	01/2001 - 01/2007
Occupation or position held	Web developer
Main activities and responsibilities	Web developer for italian public administrations Keywords: PHP, Apache, MySQL
Name and address of employer	Comune di Castelnuovo Berardenga - Via Garibaldi, 4 - 53019 Castelnuovo Berardenga (SI) - tel. 0577-351303 fax 0577-355273
Type of business or sector	Computer Science
Dates	01/2001 - 07/2005
Occupation or position held	Developer
Main activities and responsibilities	Fal.Co S.a.s, a company composed by a team of students and senior developers. I worked as C++ developer Keywords: C/C++, COBOL, Qt, Linux, Progress SQL
Name and address of employer	Fal.CO. S.a.s., di Riccardo Falcucci, 11, via Poggio Bracciolini, 50126 Firenze, Italy
Type of business or sector	Computer Science / System Administration
Dates	01/2000 - 10/2000
Occupation or position held	Chartered Surveyor
Main activities and responsibilities	Chartered Surveyor for the local public administration (Comune di Firenze). I was involved on a major cadastral survey of private buildings in the area of Florence. Here I renewed cadastral maps by performing on-site measurements and technical drawings
Name and address of employer	Comune di Firenze
Type of business or sector	Public Administration

Education and training

Dates	15/7/2013
Certification Name	ISO IEC 27002 Foundation
Certification Authority	Exin (Bitil.com)
Dates	17/10/2012 - 19/10/2012
Certification Name	ITIL (v3) Foundation
Certification Authority	APMG International (QPR)
Dates	01/2008 - 5/2012
Title of qualification awarded	Ph.D.
Principal subjects/Occupational skills covered	Network Security, Formal Methods applied to security, Formalization of OASIS standards, eHealth security. Title of the thesis: <i>On Authentication and Authorisation Issues in eHealth Systems</i> . As important results I proposed a formal semantics for XACMLv2 and v3, and I discovered a security issue in the IHE specifications.
Name and type of organization providing education and training	Università degli studi di Firenze, Facoltà di Scienze Matematiche Fisiche e Naturali, Dottorato in Informatica e Applicazioni (DIA), XXIII ciclo
Level in national or international classification	Doctor of Philosophy with "Doctor Europæus" mention, Dottorato di Ricerca, menzione di Dottorato Europeo, vote 3/3 (maximum) <i>Note: the Ph.D. course has been sponsored by Tiani "Spirit" GmbH</i>
Dates	07/2007
Title of qualification awarded	Abilitazione all'esercizio della professione di Ingegnere Dell'Informazione
Principal subjects	Ingegneria dell'Informazione
Level in national or international classification	Esame di stato, vote 55/60
Dates	09/1997 - 02/2006
Title of qualification awarded	M.Sc., Master degree in Computer Science
Principal subjects/Occupational skills covered	Numerical Application of the Computer Science, Parallel Programming, Computer Aided Geometric Design, Bioinformatics, Financial Applications, acquisition and treatment of large amounts of numerical data, networking, Web Programming, distributed systems. Title of the thesis: <i>Using Intelligent Platform Management Interface (IPMI) at the LHC GRID</i>
Name and type of organization providing education and training	Università degli studi di Firenze, Facoltà di Scienze Matematiche Fisiche e Naturali, corso di Laurea in Informatica
Level in national or international classification	Master degree in Computer Science / Laurea quinquennale in informatica vecchio ordinamento, pre-riforma, 103/110
Dates	09/1992 - 07/1997
Title of qualification awarded	Diploma di maturità
Principal subjects/Occupational skills covered	Perito Agrario
Name and type of organization providing education and training	Istituto Tecnico Agrario di Firenze
Level in national or international classification	High school degree in Agricolture

Publications and Conferences

- [CERN06] H. M. Caçote, M. Masi, *Using the Intelligent Platform Management Interface (IPMI) at the LHC GRID*, published in the (internal) CERN Bulletin (2006), available at <https://twiki.cern.ch/twiki/bin/viewfile/FIOgroup/IpmiRef?rev=1;filename=ipmicern.pdf>. Social skills and
competences

I have a proactive character. I like short business travels, everywhere. I enjoy working in international domains. I have a lot of teleworking experience. I have a first level HACCP license (I volunteer as barman) and a First Aid in Pediatric ages qualification and defibrillator (P-BLSD). Around the year 1996 I co-founded the Firenze Linux User Group (FLUG). I am a computing reviews reviewer (http://www.computingreviews.com/browse/browse_reviewers.cfm?reviewer_id=123569). My Publons profile: <https://publons.com/a/1175203/>.

Computer skills and
competences

- **Programming Languages:** Java, ANSI C, C++, PHP, SQL, Matlab, Prolog were part of my background.
- **Operating Systems:** Unix (Linux, NetBSD, OpenBSD, FreeBSD, SCO OpenServer, AIX), MS Windows (all versions), Mac OS X
- **Software packages** Eclipse (my favourite tools are ECL-EMMA, FindBugs, CheckStyle, JMock). Matlab, Octave, Apache, MySQL, AFS (OpenAFS and ARLA), \LaTeX 2e, OpenLDAP, PAM, SAMBA, KerberosV, PVM, MPI, JBoss, Globus, JAX-WS, Axis2, OpenSAML, Shibboleth 2.0, JUnit. I am a fan of TDD and Agile.

Artistic skills and
competences

I started to play classical guitar in 1997. I studied latin jazz and bossa nova for 6 years.

Sport interests

I like to play baseball, I was third base with CERN's Quarks. Now I am playing with Antella's Turtles. I like hiking and horse riding. I have the first-level coach qualification for junior baseball teams. My other favorite sport is running. I am part of the *CRAL Dipendenti Comunali* sport club, where I am an happy half-marathon runner.

Driving licence(s)

Italian driving license (A, B)
